ABOUT

I am a Computer Science student with a strong interest in building practical and user friendly technology solutions. I have experience in UI/UX design using Figma, web development with React, and backend development using Java Spring Boot. I enjoy combining good design with efficient functionality to create applications that are both useful and easy to use. I am also curious about emerging technologies such as robotics and drone systems. I am always eager to learn new tools, improve my technical skills, and work on projects that solve real-world problems

EDUCATION

B.E COMPUTER SCIENCE ENGINEERING(IOT)

Sri Sai Ram Institute of Technology (Sairam Group of Institutions)

Jul 2024 – May 2028

GPA: 8.61 / 10

SKILLS

Technical Skills — Python-Basic, Java-Basic, C-Basic, Data Structures, DBMS, OOP, Streamlit, AI-assisted Development, Flutter, CSS, HTML

Soft Skills — Problem Solving, Team Collaboration, Innovative Thinking, Initiative, Communication, Creative, Analytical Thinking

PROJECTS

- **AI Platform for Multilingual Document Processing**-Developed an AI-based system for document ingestion and summarization using Python, NLP, and OCR.
- **AI-Assisted Telemedicine Application**-Built a telemedicine prototype for symptom analysis and virtual consultation using Python, Streamlit, and NLP.
- **Bot HMI: No-Code Industrial Robot Workflow Builder**-Designed a drag-and-drop platform for robot programming and workflow automation using ROS 2 concepts.
- **Web Development Intern** – Developed responsive webpages using HTML, CSS and JavaScript.

ACHIEVEMENTS

- Winner – 3rd Prize in IDEA VERSE Competition in SRM eashwari
- Top Finalist - Smart India Hackathon
- Top Finalist-National level Hackathon-Saveetha Engineering College
